BAL FINISH - TP05 PANEL

Reo Interior Sconce

The Reo series from Advent incorporates multiple faceplate options and finishes including wood laminates and embossed stainless steel patterns. Reo is further enhanced with the offering of the popular 3form® Varia translucent resin panels and Advent's hand-painted lenses. Reo is available in surface, semi-recessed and recessed mounts providing a sense of visual depth in a creative, low-profile and ADA compliant package.

Reo Interior Sconce

Reo – Surface Mount

The surface mount allows the fixture to be mounted to any wall surface while still complying with ADA requirements. This style enhances any space with a comforting glow rendered by the side illumination. When specified in our 3D open window style, this mount provides a sense of depth, without needing to recess the fixture.

Reo – Semi-Recessed Mount

The semi-recessed mount allows the fixture to be partially recessed into the wall cavity while still accenting the space with side illumination. This mounting style provides a sense of depth in a low-profile, ADA compliant package.

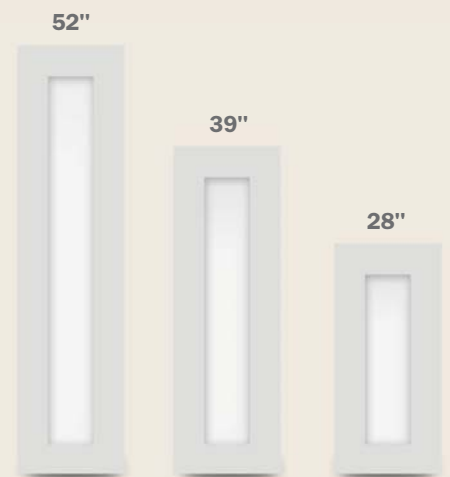

Reo – Recessed Mount

The recessed mount allows the housing to be fully recessed into the wall revealing only the faceplate. When specified in a 3D open window style, the recessed mount provides a sense of depth in a very low profile fixture. With a 1" wall projection, the recessed mount easily satisfies all ADA standards.

AIW1528
(PT11 FINISH - ES1 ACCENT)

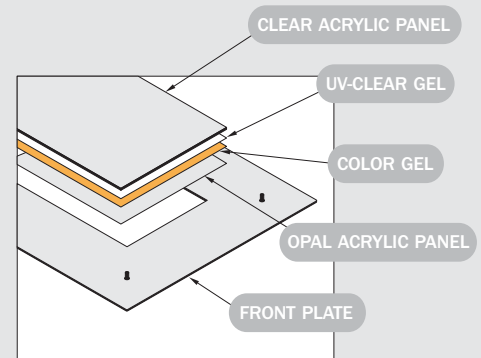

Lens Construction

The Reo flush front lens creates a stylish appearance through strategically layered components.

The opal acrylic panel provides a protective layer and creates a uniform appearance through light

diffusion, the color gel adds versatility through color customization and the UV filter provides the color gel additional protection from the lamp.

Reo Interior Sconce

Specifying Finishes

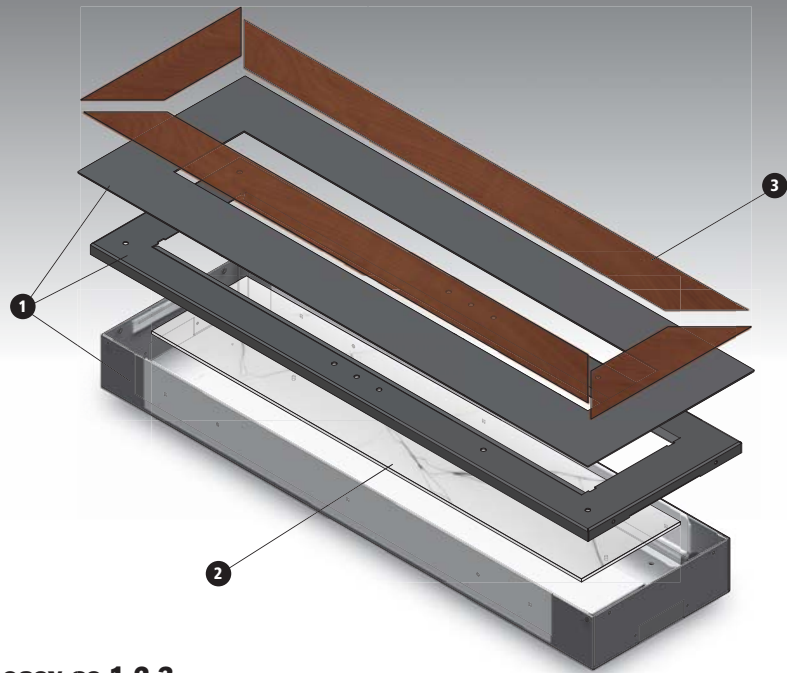

ADVENT

How to Specify Reo's Multiple Finishes

Create the ideal design solution by utilizing Reo's flexibility of finishes, colors, textures and accents. Traditional, transitional or contemporary can be achieved with Reo's nearly 22,000 possible combinations. Select the mounting style, appropriate scale and lamping, and then customize the fixture's finish in three simple steps.

- ① Housing and Faceplate Finish
- ② Lens/Panel Option
- ③ Optional Surface Accent

Creating your own distinct look with Reo is as easy as 1,2,3...

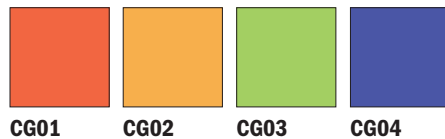

1 Select Finish Option

Faceplates are available in painted or brushed aluminum finishes, with all housing painted to match. Brushed aluminum faceplates receive a textured aluminum (PT46) housing. Refer to page 17 for additional finish information. Advent uses thermoset polyester powder coat paints. Over 30 standard colors are offered and others are available. Consult factory for custom configurations.

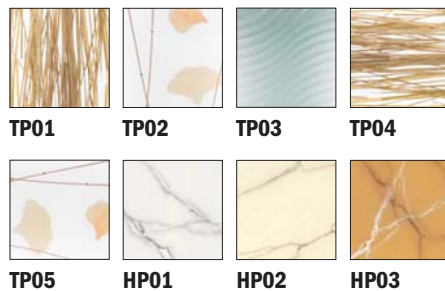

2 Select Lens/Panel Option

Flush Front Lens Options
Reo's flush front lens models allow you to add color to any space. The standard frosted white lens can be transformed with four color gels. Other colors are available upon request.

3D Open Window Lens/Panel Options

Popular 3form® Varia resin panels or Advent's unique hand-painted lenses can add texture and color.

3 Select Optional Accent

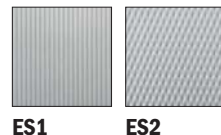

Wood Laminates

Add texture and warmth with our cherry and maple wood laminate surface accents.

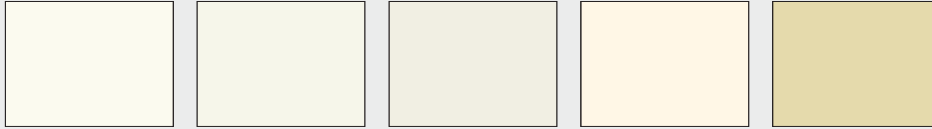

Textured Stainless Steel

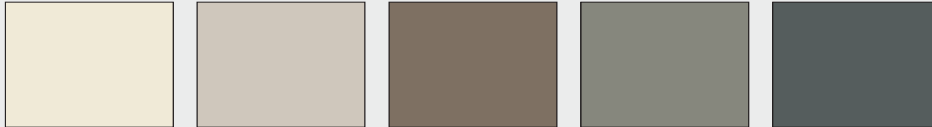

Reo is offered with two textured stainless steel materials. Our ES1 is an embossed stainless steel-linear pattern and our ES2 is an embossed stainless steel-crosshatch pattern.

Customization

Advent has the ability to modify products to meet and exceed any customization demand. Reo's options include alternative translucent panels, custom faceplates, colors, materials, finishes and even painted or silk-screened logos. Think outside the box and contact Advent at 262.242.1420 or visit www.spilighting.com to make your vision, reality.

ARCHITECTURAL LIGHTING

Pendant

Advent's extensive pendant selection features luminous acrylic bowls and cylinders, as well as opal glass and spun metal options.

Chandelier

Two and four bowl configurations provide a dramatic effect for large-scale spaces. Also available in cylinder versions.

Sconce

With styles from classic to contemporary, many meeting ADA requirements, Advent sconces provide a decorative accent for any space.

Ceiling

Perfect alone, or as an complementary accent to our other families of product. Surface mount or semi-recessed versions are available.
